### **I. INTRODUCTION**

ISGIncome, an eCommerce software development company, is building its first set of Internet Stores and other websites for its new, global, Internet Store network. The network's goal is to build 600 Internet Stores, Social Networking, and other websites, and will create its own crypto currency and A.I. (Artificial Intelligence programs), over the next 6 months. These Internet Store websites are all operated independently of one another.

To generate income on its network, ISGIncome and its sister company, ISGStores, will sell various products and services to the public, and sell advertising space on each of its websites. To accomplish building this network much more rapidly, ISGIncome has created an excellent opportunity for people like you. ISGIncome has created a Membership Income Program ("Membership Program") which operates as club, which will pay each Member a monthly, passive, supplemental, income of \$50 per Membership for 24 months. The first 6 months pays back the Membership Fee, and the next 18 months' of payments are pure monthly income. Your monthly income will begin in 30 to 45 days after you have paid your \$300 Membership Fee. You can increase your monthly income by joining and paying for multiple Memberships, and ISGIncome will pay you \$50 per Membership for the next 24 months. The Membership Fees are used to pay for company expansion and building monetized websites from Internet Stores where the public can purchase products and services to online Dating websites to games for entertainment and fun, and many more.

The ISGIncome Membership Program IS NOT a Multi-Level Marketing, Affiliate-Referral Marketing, Network-Referral-Marketing type of company or organization, and therefore, there is no down line in this Membership Program! You will not have to sell anything, you do not have to recruit anyone, you do not have to market anything, you do not have to call and talk to anyone, you do not even have to e-mail anyone! Absolutely no work or effort required by you!

As a "Thank you" and appreciation for joining the Membership Program and paying your Membership Fee(s) to build this network, ISGIncome pays you back and then some. This is network of Internet Stores and our other websites currently under development will be easy to use and navigate to shop alone or with family and friends in real-time from different locations online. ISGIncome's websites will be easier to locate and purchase products and services. It will allow the users to exchange of photos and videos, shop, to call others in video format, and do many other things.

Each Internet Store website that sells products and services ('products') will only offer a limited number of products for each store because they will be "product-specific", "category-specific", "Themed-specific", and "Informational" Internet Store websites. What this means is that if an ISG Internet Store is selling toaster ovens, then that will be the only category of product sold on that Internet Store website, but selling different brands and types of toaster ovens will be offered for sale. This is an easier way to shop, as the ISG Internet Stores will be more focused and easier to navigate and find the product a person wants.

In addition to these Internet Store websites will be a groups of other websites such as ISG's version of Penny Auction websites (which is a type of auction but are not any type of gaming or gambling), Dating and other Social Networking and other varied websites. All ISG websites will be monetized in one form, shape, or manner, and all will become passive, income-producing websites. We call this the "ISGIncome Internet Store Network" or the "ISGStores Internet Store Network".

Additionally, one of ISGIncome's purposes is to develop and seek-out passive money-making opportunities, test them and see what works and what doesn't to make a passive income, then pass it on to its Members to give them opportunities to earn additional supplemental incomes that are **Not A Multi-Level Marketing Company, Affiliate-Referral Company, Network-Marketing-Referral Company!**

The key here is that ISGIncome is building websites to monetize and get them generating monthly income as quickly as possible - and you can be paid each month for helping ISGIncome reach these business goals!

The first phase will be ISGIncome will build the Internet Store websites and put them online as "stand-alone" websites, then, eventually migrate them into a classified advertising directory. Approximately 25 Internet Stores are under development and in a few weeks, another 50 Internet Store websites will start their development process. The more Members that join, we can build Internet Stores and other websites much more rapidly.

This is a special project for ISGIncome. Our Mission in this project is to create a money-making opportunity for those who seek to make a supplemental income for themselves and to create a social networking platform where you and others can shop together in real-time, with the same functionality and control of the website, from different locations, and a social media networking platform that does much, much for people to interact in shopping, social media, and other Internet activities, in an electronic, global community.

## II. THE MEMBERSHIP INCOME PROGRAM

***The Purpose of ISGIncome Membership Program... Simply put... is to assist ISGIncome and its affiliated companies in developing and putting online its various types of websites online much more rapidly, and to provide a passive, supplemental monthly income to its Members for a period of time for helping ISGIncome build its Internet Stores network.***

To accomplish building this network together and where you can make money with ISGIncome, ISGIncome has created a Membership Program that helps ISG build its Internet Store network

How does this Membership Income Program work? It is as simple as you can get... You join a Membership (or multiple Memberships) by paying \$300.00 per Membership. Then, for that Membership ISGIncome will pay you \$50.00 per month for 24 months. The first six (6) monthly payments repay your Membership Fee. The remaining payment from the 7th to 24th month is your supplemental income. To increase your monthly income, you can join multiple Memberships - You can join as many Memberships as you want at \$300.00per Membership, thereby increasing your monthly income. ***It is that simple!***

This Membership Program ***IS NOT*** any type of a multi-level marketing company, affiliate referral company, or a network marketing referral company! You will not have to sell anything, you do not have to recruit anyone, you do not have to market anything, you do not have to call and talk to anyone, you do not even have to e-mail anyone! Absolutely no work or effort required by you. To get paid you only have to pay a \$300.00 Membership Fee for each membership you join. To make money all you have to do is leave the work to ISGIncome and ***YOU Make Money!*** You do not even have to pay any on-going monthly fees of any kind to maintain your Membership. To increase your monthly income besides joining multiple Memberships, ISGIncome offers a "referral Commission" if you choose to refer someone and they join, but there is no downline like MLM. Just pay your membership fee and join the Membership, and start making money each month!!! Each membership you join pays you \$50.00 per month for 24 months. The first 6 payments repays the Membership Fee. The next 18 payments are pure income. It cannot get any simpler than that. ***A win-win situation for everyone!***

The Membership Fee(s) you pay to join the ISGIncome Membership Income Program is used to pay the expenses in building the websites and pay company operating expenses.
